

As a professional who relies greatly on my vision, it was imperative that I went to "the best" for Lasik surgery. My extensive research included not only the doctor's qualifications, but the equipment used as well as the staff involved in performing the procedure. After my initial visit with Dr. Arrowsmith I felt very confident that I had made the right choice.

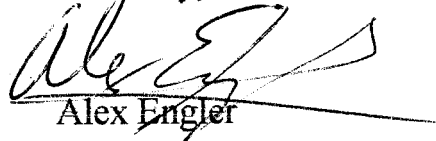

On any given day as a Boeing 777 Captain for United Airlines, I am responsible for as many as 348 passengers plus crew. My commitment as a Captain is to provide the highest degree of safety and professionalism. There is no room for error.

This is the commitment that Dr. Arrowsmith made to me when I put my eyesight in his hands. From the initial visit, to the procedure and subsequent follow ups he has earned my greatest respect and deepest gratitude for the Lasik surgery has truly been a "life changing" experience.

I have recommended Dr. Arrowsmith and his exceptional staff to the Airline Pilots Association Aero medical Department.

Thank You Dr. Arrowsmith and staff!

Sincerely,

Alex Engler
